DEALINGS STOCKS

NEW YORK MARKET FAIRLY AC-TIVE, BUT PRICES IRREGULAR.

Leading Shares Manipulated by Bulls and Advances Scored-Local Grain Market Lifeless.

At New York yesterday money on call was firm at 5@6 per cent., the last loan being made at 5, closing offered at 5. Prime mercantile paper nominally, 799

per cent. Sterling exchange steady, with actual business in bankers' bills at \$4.84% for demand and \$4.82\\@4.82\\ for sixty days. Posted rates, \$4.83@4.84% and \$4.85@ \$4.86. Commercial bills, \$4.82. Bar silver,

Silver certificates, 46% 647c. At London bar silver closed at 30%d per ounce. The New York Evening Post says: "Up to 8 o'clock this (Monday) afternoon \$64,000 in gold was deposited in the United States subtreasury in exchange for legal-tender notes. Some of the assay office checks that were issued last week in payment for gold bullion have been exchanged for greenbacks, so that the gold they represented as retailed in this market: becomes part of the treasury gold reserve.

The steamship La Normandie, which arrived from Europe Saturday, brought \$1,773,000 in gold. The Bank of England, it was reported by telegraph, sold another.

as retailed in this market:

Anthracite coal, \$7 per ton; Pittsburg lump, \$4; Brazil block, \$3; Winifrede lump, \$4; Jackson lump, \$2.75; Greene county lump, \$2.75; Paragon lump, \$2.75; Greene county nut, \$2.50; Blossburg coal, \$4.50; crushed coke, \$2.25 per 15 bu; lump coke, \$2.75; foundry coke, \$6 per ton. it was reported by telegraph, sold another round amount of gold Monday morning for shipment to this country, and that fact,

The stock market was moderately active and the course of prices irregular. There was clear evidence of manipulation by operators for both accounts with the bears in control in the forenoon and the bulls in the afternoon dealings. The only news bearing upon prices consisted of the declaration of the regular quarterly dividend by the Manhattan directors, the recommendation of the declaration of the declaration of the regular disbursement on Western Union and the look of t St. Paul annual report. The arrival of gold from Europe has now begun to be regarded as a matter of course and also the deposits of fairly considerable amounts of the money in the subtreasury. London prices came lower as a result of bear strategy, it was claimed, and the local opening, under this influence and realizing, was decidedly weak, with the industrials and spe-cialties the chief sufferers. The early declines extended to 1/2 per cent. At the dea noticeable absence of pressure of long stock, and this fact soon caused a firmer tone and fractional recoveries occurred. The bears renewed their pressure on the grangers and specialties, and forced Manhattan down 2½ per cent. to 80½, on rumors of an impending reduction in the dividend rate to a 4 per cent. basis. On the official announcement of the regular 1½ per cent. distribution the stock advanced to 84. London was a selier of St. Paul and Louisville & Nashville, and the railway shares generally were rather heavy. After 1 o'clock the market turned on the execution of buying orders for both accounts, partly influenced by the publication of the pamphlet report of arnual operations of the St. Paul, showing even more favorably than had been anticipated. The market on the uptack displayed more animation than had characterized the reaction and the the uptack displayed more animation than had characterized the reaction, and the traders were active in bidding up prices, especially in Sugar. The stock mentioned rallied and advanced 3%, to 116%. Burlington rose 2%; Manhattan, 3½; Rock Island and Tennessee Coal, 2; Western Union, 2½; General Electric, 1%, and other material but less important gains were scored. The industrials contributed largely to the agindustrials contributed largely to the ag-gregate sales and the variations in some of those stocks were noteworthy, including Cotton Oil preferred, which advanced from 10 to 131/2 on an exchange of 100 shares. The closing was at the top level at gains of a point or thereabouts in many shares. Bonds rose sharply in sympathy with the improvement in stock values. The gains, however, were most pronounced in the less active issues, with St. Louis Southwestern

Governments were dull, but strong, on purchases of \$10,500. State bonds were dealt n to the extent of \$21,500 at slight changes. The following table, prepared by L. W. Louis, Room 13. Board of Trade, shows the range of Open- High- Low- Clos-

ANOTHER STORY OF LL. Pertinent Question to Mrs. Foster-The Chinaman's Wealth.

Chicago Times-Herald. An amusing story of Li Hung Chang is told in official circles. Whether or not it is accurate in all particulars no one seems to know, but the tale is as follows: When John W. Foster and tole is as follows: When John W. Foster and Mrs. Foster were in China they were handsomely entertained by the Viceroy and a warm friendship sprang up between the former American Secretary of State and the greatest man of the Eastern world. Then as now, Li Hung Chang was disposed to ask all manner of questions and at the first opportunity he asked Mrs. Foster if her husband was not a very great man and a very rich man in his own country. Mrs. and a very rich man in his own country. Mrs. Foster replied with becoming modesty that Mr. Foster had held many high official positions. He Foster replied with becoming modesty that Mr. Foster is greet. 9@11s; tire steel, 24@3c; spring steel, 44@5c.

WHEAT CLOSED HIGHER

FEATURES OF YESTERDAY'S SPECU-LATION AT CHICAGO.

Leading Cereal Lost Early, but Gained Later-Corn Declined 1-4e and Oats Advanced 1-8c.

CHICAGO, Sept. 8 .- Good export business and expectations of an unfavorable crop report helped December wheat to-day to an early loss of %c, but it closed a shade higher. Corn was not so buoyant and declined %c for May. Oats advanced %c and provisions closed unchanged to 5c higher. The bears in wheat had enough encour-

agement at the opening to make their agement at the opening to make their hearts glad. The world's shipments to Europe last week were 7.514,060 bu, including 3.370,000 bu from this side. The amount on ocean passage increased 248,000 bu last week; the receip's at Minneapolis and Duluth since Saturday numbers 2,512 cars, compared with 3,175 cars the corresponding time a year ago. Chicago received 462 cars, compared with 247 on the similar days of the previous year. The political situation had likewise a little effect in increasing the weakness at the opening, which was represented by a decline from 571/2c for December wheat at the start to 571/60571/4c in cember wheat at the start to 57%@5714c in the course of the next half hour and compared with Saturday's closing value of 57%@58c. The visible supply statement did not show quite as large an increase as had been looked for, the addition for the week being given as 921,000 bu, against from 1,000,-000 to 1,500,000 bu expected, and compared with an increase of 1,318,000 on the corresponding week of ast year. The fact that cables kept strong notwithstanding the speculative weakness here was looked upon as a favorable factor and there was some encouragement derived from the export business, which up to noon was placed at 240,000 bu, although all of it could not be confirmed. The clearances of wheat and ficur for one day from the Atlantic ports were equal to 540,000 bu, 323,000 of which was in the shape of wheat. These items were considered favorable by the bull continued and by 12 clears and the shape of which was in the shape of wheat. tingent, and by 12 o'clock an advance to 57% c had taken place. There was considerable strength developed during the last hour on a pointer sent from New York that the government report Thursday would estimate only 396,000,000 bu of wheat. Early sellers turned buyers and December sold to 58c, a shade higher than it closed Satur-day. That was the closing figure. Low as corn prices were before, they declined still more to-day. The continued large local receipts augmented the general depression among holders, and, though the market recovered a little before the close, it at no time showed real strength.

and closed easy at 22%c.
Oats were dull and rather easy most of the session, prices being kept weak by the demoralization of the low grades in the sample market. The upward tendency of wheat had a good effect later and prices were somewhat higher at the close. May opened 1sc lower at 181sc, and advanced to 18% a181sc, where it closed.

Provisions were dull during the greater part of the session, but with a firm under-tone. Prices at the yards were higher and good buying by packers, the market devel-Estimated receipts Wednesday: Wheat, 350 ears; corn, 905 cars; oats, 540 cars; hogs,
